

# A shed with multiple personalities?

Sometimes a shed needs to be more than a shed. A playroom for the kids? A hobby room or workshop? Or even just a great place for friends to gather? Before you start to build, think about your future plans, and maybe what you haven't planned. It makes sense to keep your options open.

A high quality insulation product such as Reflecta-Shed™ will keep your options open for the life of the shed. The unique patented coating on Reflecta-Shed™ guarantees against oxidisation and corrosion, maintaining comfort and performance long after the kids have moved out, and the grand-children have moved in.

**Don't make the mistake of not thinking ahead.**

**Before you start, talk to your shed builder about the best possible insulation solution for your Shed. Reflecta-Shed™.**

## New Reflecta Shed™ Reflective Foil Insulation

This brand new, high performance and very economical product is Ideally Suited for Sheds and other applications that do not require compliance to the Building Code of Australia specifications. Only 4.0mm thick Reflecta-Shed™ features a patented protective coating, scrim for strength, and promises 15 years GUARANTEED protection.

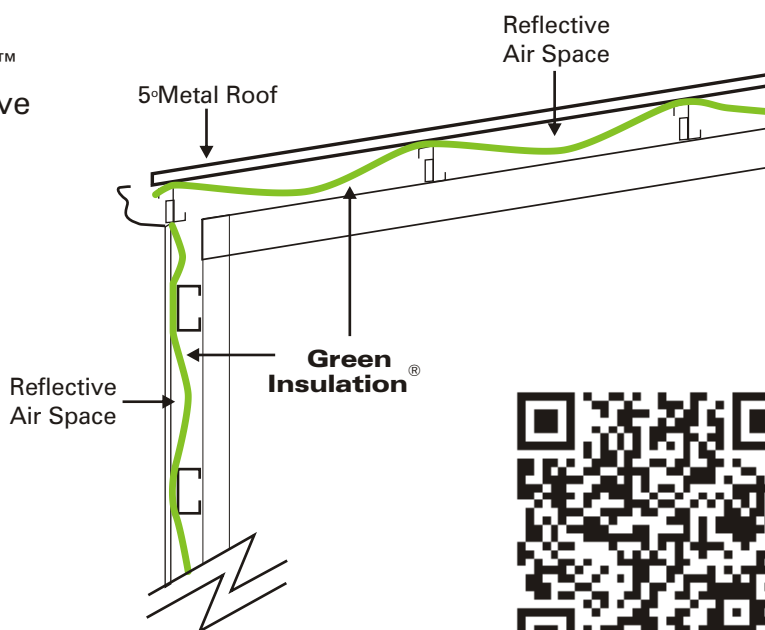

This is a breakthrough reflective foil insulation product fresh from our brand new Australian manufacturing at Meadowbrook in Queensland. Our new manufacturing technology is about giving you an edge!

### Reflecta-Shed™ from Green Insulation® features:

- Unique patented protective durable polymer coating that guarantees against oxidisation and corrosion for 15 years
- Heat laminated, air bubble core providing an exceptional barrier against conductive heat, humidity, water and vapour penetration
- Two outer layers of 99%+ pure aluminium (with reinforced weave/scrim on both sides)
- Reflecting up to 97% of radiant heat
- Environmentally/Eco friendly and fibre-free
- Anti-slip properties make it safer for installers
- 1500mm wide means it's 10-20% wider than most insulation products
- 45m<sup>2</sup> roll (1500mm x 30m)

Green Insulation®'s Reflecta-Shed™ Insulation is a product you can have absolute confidence in.

This leading edge insulation eco-product will ensure your project's sustained comfort and performance like no other product in Australia.
